There were 131 real estate transfers last week, representing nearly \$180,000. The market was not strong, yet it was not dull, as several large transfers were made. One of the important deals made last week was the sale by Daniel H. Sullivan through the Richie agency of a modern two-story frame dwelling at 809 East Eleventh street to Walter H. Sprankle for a consideration of \$5,000. It is the purpose of Mr. Sprankle to convert the building into a conservatory of Music. He is a musician well known in

Work has been begun on the Parry manufacturing plant near the Vandalia Railroad tracks west of White river. The plans for this mammoth structure were prepared by Louis H. Gibson and provide for a building 135 by 468 feet, comprising a dry-house 60 by 168 feet; boiler and engine room, 34 by 75 feet; hub and spoke dryhouse, 60 by 16s feet; bending and wheel department, 60 by 360 feet. The building will be constructed of concrete and slow purning material. Work will be hurried as rapidly as possible and the building will probably be under roof by Nov. 1s.

An advance proof from Construction News, of Chicago, for Sept. 14, on building operations in twenty cities during August

"Apparently the strike of the steel workers, contrary to the expectations of many, has resulted in little or no ill effect upon building operations throughout the country. Statistics, officially compiled for Constitution News, display a healthy increase during August over those for July of this year, and a still larger gain over the totals of July, 1900. The increase over last month was, in a measure, expected, as during the torrid spell during the month previous a slight halt in building circles was apparent. However, it was anticipated by some that the sumtotal of operations for last month would suffer a slump and that the factor in the diminution would be the steel strike. Happily, this has not been the case in It is admitted that the strike upon obtaining the iron and steel. But reports from nineteen other cities indicate tated against the improvements planned for those municipalities. Last month's those of the corresponding period of last

"During August 5,209 permits, involving an outlay of \$21,568,968, were issued, as against 4,761 buildings that represented an expenditure of \$13,709,958 during August, 1900 -an increase of 448 structures and of the sum of \$7,859,010 in their cost, or a general increase of 58 per cent. Following are the

Totals5,20 \$21,568,968 4,761 \$13,709,958 "Sixteen of the twenty cities show increases, varying from 2 to 146 per cent., St. Paul follows with 133. Then comes Cincinnati, third, with 114 per cent., and Buffalo has awakened to the fact that its up. Pan-American Exposition has not wholly usurped its attention, as the Rainbow City is credited with a percentage of 113. "Of course, New York heads the list when

it comes to the expenditure involved, and to population and wealth by nestling close to the "top liner" in the column of statisties. St. Louis, second in the July table. has tumbled, temporarily, into the list of the "also rans," and shows a loss of 7 per cent. However, the advent of the Louisiana Purchase Exposition in that city will doubtless result in a building boom at the end of the bridge before snow flies. The greatest percentage of loss is displayed by Atlanta-69. Where the sum of \$609,214 was expended for new buildings in August, 1900. n that city, only \$186,156 was the outlay last month

"New Orleans shows a steady increase. and C. E. Dirmeyer, secretary of the Mechanies', Dealers' and Lumbermen's Exchange, says that the outlook there is bright. In Los Angeles the percentage of increase is also gratifying."
